Team members present:

- Trần Văn Quyết
- Dương Phước Sang

What went well?

- Nguyễn Hoàng Đức Nguyên: We almost done in coding admin page, and the front-end is like the UI which we've sketched
- Nguyễn Đắc Khôi: Everything went well, we found some first test case for the program, and we need to find more

What lesson could we learn?

- We know how to sketch the UI using tools, we think that it very useful because we have the blueprint for front-end, so we just attach to it and implement
- We also know how a test plan is written, we have to find many case for testing
