

===== 13/07, Sprint 3=====

Team members present:

- Nguyễn Hoàng Đức Nguyên
- Nguyễn Đắc Khôi
- Trần Văn Quyết
- Dương Phước Sang

What have we done since last week?

- We have done PA2 with design use-case model and fill in use-case specification document, and revised vision document
- Beside, in coding, we have done the login with google account, connect to database in order to store the data of product

What will we do until next week?

- The target of next week is to design software architecture for the project by using diagram
- The second thing is revising the use-case specification document based on the comment of TA
- And, we can try to implement the add/delete/update product

===== 21/07, Sprint 3=====

Team members present:

- Nguyễn Hoàng Đức Nguyên
- Nguyễn Đắc Khôi
- Trần Văn Quyết
- Dương Phước Sang

What have we done since last week?

- We have done PA3, software architecture document, including class diagram for components, revising the use-case specification document
- We now can add/delete/update product and the new data is appear in database too

What will we do until next week?

- The first thing is revising the software architecture document
- We need to research and fill in 2 sections in software architecture document, they are deployment and implementation view
- Sketching user interface for the system by designing UI is needed, too.
- In coding, we will try to design the home page, and update title image for the products
