

===== 24/6, Sprint 1 =====

Team members present:

- Nguyễn Hoàng Đức Nguyên
- Nguyễn Đắc Khôi
- Trần Văn Quyết
- Dương Phước Sang

Sprint 2 Tasks:

- Design Database: Designing a database is crucial in website development to ensure efficient data storage, retrieval, and management.
- Create Database Object: we need to create objects based on the designed database in order to store data.
- Review, and fix issues in project plan of Sprint 1: remove issues and complete parts we haven't done yet.
- Check out some coffee websites: we should find some websites which are the same content with our websites to have references for project.
- Continue learning JS: This is a work all members have to do
