========== 24/6, Sprint 1 ==============

Team members present:

- Nguyễn Hoàng Đức Nguyên
- Nguyễn Đắc Khôi
- Trần Văn Quyết
- Dương Phước Sang

What went well?

- Nguyễn Hoàng Đức Nguyên: We have been better in planning and understanding about process of developing an app or a website.
- Trần Văn Quyết: We have found a direction for the project regarding the programming language, IDE, and we are quite convenient in the installation and learning of them.
- Nguyễn Đắc Khôi: The team members get along very well, enabling effective collaboration in our works.
- Dương Phước Sang: Regarding the materials provided by the TAs, we can rely on them to easily learn and grasp various concepts. They serve as valuable resources for our learning journey.

What to improve?

- Nguyễn Hoàng Đức Nguyên: Because we have to learn other subjects, so we need to arrange time more reasonably.
- Trần Văn Quyết: JavaScript can indeed pose a challenge as it is a completely new language that we have to learn.
- Nguyễn Đắc Khôi: Because our team just have 4 members, so each member must try harder in this project.
- Dương Phước Sang: This is the first time we handle so many documents, but i believe that we can do it well.

What lesson we could learn?

- First, about JavaScript, we can approach it as a new language, which will help us adapt better to future working environments. By treating it as a fresh learning experience, we can gain a solid foundation and enhance our ability to adapt in the future.

- Secondly, through this course, we can learn how to write documentation, gather information, report, and schedule for software development. This is a valuable skill in the field that many students are eager to learn.

- Lastly, we will also learn about project management, planning, and working according to established schedules. Additionally, we will gain valuable experience in collaborating effectively

with each other in the workplace. These skills will greatly contribute to our professional growth and success.
